University of South Alabama Policy Governing U.S. Export and Sanction Laws Office of Research Compliance and Assurance Commerce DepartmenExport Administration Regulation(EAR)

15 CFR730-774, govern the export of items or technologies that commemorial of dual-use" in nature, such items refound on the Commerce Contiloist (CCL) and anti-boycottegulations htt can be applied

the timeof the exchange.

There are five issues that affect whether an export license is required:

- (1) Which government department has jurisdiction over the item sent, the Department of Commerce's Bureau of Industry and Security (BIS), the Department of Statets Date of Defense Trad€ontrols (DDTC), or neither;
- (2) What item will be exported;
- (3) Where the item will be exported to;
- (4) Who will receive the item; and
- (5) What the item will be used for after receipt

The Officeof Research Compliance and Assurance arranges for appropriate support to address export control and license issues, in consultation with the Empowered Official who is the authorized official to sign license applications on behalf of USS tate, Commerce, and TreasuryDepartmentsLicenses normally take 2-6 months from submissions of application to issuance.

Cloud Computing

USA uses a Google server for electronic correspondenceail(e-Because Google's servers can be located anywhere and can be operated by anyone hired by Google, any information transmitted electronically or stored on a Cloud server (Drive, in the case of Google) is considered a deemedxport. The ownness of the information's security is in the hands of taecetding to BIS regulation Therefore, ORCA recommends PIs not communicating any potential export controlled, restricted, or sensitive information, data, vetecemail or storing it on the Google Drive (or any Cloud-based system) until further notice is received that USA has procured a secure solution for such activities.

No "Side Deals"

The mission of a research institution and the very essence of science require constant communication, much of it informal. That said, it is easy for these communications to transgress into informal agreements made between researchers and sponsors withtoespecisions at the discretion of the research(ere., not to submit research articles for publication, until they have been approved by the sponsor). Such an informal agreement, however, can invalidate the fundamental research exclusion, thereby potentially exposing the researcher, as well as the institution, to the onerous penalties that may follow from a violation of export control laws. Every researcher needs to clearly understand that compliance with the export control laws is not discretionary and to ignore them as not being applicable to one's own behavior is to invite serious consequences, which may include both civil and criminal penalties and/or large fines assessed to both the Universityd the individual researchers, as well as the **pitity**siof suspension of certain research programs.

Restricted Party Screening

Various government agencies maintain lists of prohibited and sensitivesend-Licenses generally are required to ship aitems to these endsers or to carry out a transaction in which a prohibited or sensitive end-user is involved in any way. In order to ensure that blockdising business with people or companies who have been debarred, denied export privileges, or are otherwise on one of the numerous government "prohibited lists," the University must storeen ensure the export is not itself prohibited or being sent to a prohibited end user. The University has purchased software callocistal Compliancethat will conduct this assessment

Policy Implementation

The ORCA has developed the following processes and standard operating procedures to help Administrators, PIs, and other persons engaged in research at the University decide whether the EAR, ITAR and/or OFAC affect a particular research project and identify appropriate resulting action(s).

1. University Administration

The PI is the individual who bears primary responsibility for all essential aspects of the work being carried out, including technical aspects and completion of programmatic work, compliance with government, sponsor, and university policies and regulations, fiscal stewardship of sponsored funds, and all administrative requirements of the project. He/she must understand and comply with any export restrictions and must also ensure that all personnel working on his/her projects are also informed. The PI has primary responsibility for export compliance to include the following:

- x prior to commencing any research, revitegvand cooperating with the Officef Vice President for Researchind the ORCA determine whether any technical information or technology involved in his or hresearch is subject to the export control law or regulations and, if so, whether any exclusion is available under the export control regulations;
- x Re-evaluating that determination before **ongaing** the scope f or adding new staff to the project to determine if such changes alter the initial determination;
- x Making export determinations far enough in advance to obtain an export license from the appropriate agency, if required and available; and
- x Ensuring that foreign nationals are excluded from access to restricted data or technology until the availability of an exemptionexception has been determined runtil an export license has been obtained.

The ORCA will assist PIs in assessing application of such regulations, but primary compliance responsibility rests with the Principal Investigator of the research.

 Sponsored Projects Administration (See SOP, Attachment A The Office of Sponsored rojects Administration (SPA) and the Office obtobtd P ojtev (minn)2 (c)6

When requested, ORCA will seek council from USA's legal team to provide legal guidance and interpretation of export and sanction regulations an**d**rlawssultation regarding potential export control violations.

Violations of Laws, Regulations, and Policies

Possible violations of governmental laws/regulations will be investigat#bebyniversity Empowered Official or designee. Action will be taken according to the nature, severity, and scope of the offense consistent with University policy. The University has the authority to suspend or terminate a research, teaching, testing, or other export activity if it isnded that the activity is not in compliancer will lead to noncompliance with existing export or sanction laws or policy. USA reserves the right to voluntarily contact authorities in the event of misconduct. Violations of U.S. export control laws angulations can result in substantial criminal and civil penalties for both the individual involved in the violation (i.e., fines of up to \$250,000 per violation or imprisonment for 20 years) and substantial fines and penalties for USA. Violations also can result in the loss of export privileges for USA or for individuals involved in the violation.

Record Keeping Requirements

Departments or programs must keep hard copies of all export documentation, including financial records, shipping documentation, and appropriate certifications as defined by ORCA in their research files for a period of five years from the date of experts pert, or controlled deemed

APPENDIX A

Policy and Procedures

1. Purpose

The purpose of this document is to establish procedures to be followed in connection with Sponsored ProjectsAdministrationsubject to International Traffic in Arms Regulations (ITAR), Export Administration Regulations (EAR), Office of Foreign Assets Control (OFAC) Regulations or other applicable export control regulations.

2. Definitions

<u>Foreign National Person</u>: Any person who is not a U.S. citizen, lawful permanent resident alien (green card holder), refugeeroptected political asylee or someone granted temporary residency under amnesty or Special Agricultural Worker provisions. Also any foreign government or any foreign corporation or entity that is not incorporated or organized to do business in the U.S.

<u>Fundamental Resear</u>ch: Means basic or applied research in science and engineering performed or conducted at an accredited institution of higher learning in the U.S. where the resulting information is ordinarily published and shared broadly in the scientific community. Fundamental research is distinguished from research that results in information that is restricted for propriety reasons or national security reasons (EAR) and pursuant to specific U.S. government access and dissemination controls (ITAR)

<u>Technology Control Plan (TCP</u>) plan, prepared byr Picipal Investigator and approved by the Unit, and reviewed by Office of Research Compliance and Assurance, for ensuring that there will be no unlawful export of restricted commodities, defense articles, software, data, technology, or technical data in a Sponsored Project without an appropriate government approval.

3. Responsible Research Administration Offices

The Sponsored Projects Administration P(A), the Office of Health Systems Grants Administration and Developme (HHSGA), and the Intellectual Property Manageme (HPM) are responsiecthnijeestfices

5. Policy Administration

The Office of Research Compliance and Assurance applicable Research Administration offices are responsible for ensuring that Sponsored Project proposals, contracts, and gradstare dentified and in compliance with applicable export control laws.

The Vice Presiderfor Research and the RCA Directorare responsible for this policy. The ORCA Director is responsible for issuing requests for export licenses, commodity jurisdiction requests, commodity classifications, and other documents required by applicable export control regulations that relate to Sponsored Projects.

6. Principal Investigator Procedures

The Principal Investigator (PI) must complete the Export Control section on the University Transmittal Form and isresponsible for complying with applicable export control regulations and for preparing and implementing a project specific TCP ranidentified export-controlled Sponsored Project. When a potential export control issue is identified by a Research Administration office, the Principal Investigator is referred toORCA for a final determination of the export control regulation applicable to the project. The Office of Research Compliance and Assurance will assist thartDrept, College, or Unit and the Principal Investigatorin determining the appropriate export control management and, if the Sponsored Project is export control restricted in determining security measures needed to prevent unlawful export of export controlled software, technology, or technical data to foreign nationals or foreign persons without an appropriate license or other government approximal.Principal Investigatorand Unit shall comply with the security measures in the TCP and annually certify toAOtRat they are complying with the TCP for each export controlled Sponsored Project for which they are responsible.

Principal Investigators us to be aware that any "side" arrangement, contracts, terms, or clauses negotiated by the PI and sponsor without the express knowledge and/or approval of the Vice President for Research may jeopardize the University's fundamental research exclusion. Tikersity of South Alabama will not honor, recognizer be bound by any such arrangement, contracts, terms, or clauses.

7. Pre-Award Proposal Processing Procedures

x Review Requests for Proposals / solicitationsleptify any export control, foreign

- x Enter into SPAdatabase any publications restrictions, foreign national restrictions, export control restrictions (i.e., EARITAR, OFAC)
- x If applicable, the award acceptance sheet should indicate export control restricted research.
- x Whenever possible negotiated remove publication/access and contract specific national security restrictions to allow the Sponsored Project to be conducted as Fundamental Research, not subject to export control regulations.
- x Consult with PI and/or ORCA when changes are proposed to a Sponsored Project (i.e., personnel, or equipment added; venue or scope of work changed) that may involve export control regulations.
- x Obtain and include therincipal Investigator and Unit's signed TCP in an export control restricted award unless this requirement is verticed in writing by the Director of OBA.

9. Office of Research Compliance and Assurance Procedures

- x Make the final determination if a Sponsored Project will require a **UnCle**r export control regulations.
- x Advise the Unit, Pincipal Investgator, and SPAof any required TCP for any export controOR

Management of ExporControls for International Student Admissions

APPENDIX B

Policy and Procedures

Purpose

The purpose of this document is to establish procedures to be followed in connection with International Student Admissionsubject to International Traffic in Arms Regulations (ITAR), Export Administration Regulations (EAR), Office of Foreign Assets Control (OFAC) Regulations or other applicable export control regulations.

Definitions

<u>Foreign National Person</u>: Any person who is not a U.S. citizen, lawful permanent resident alien (green cardholder), refugee, protected political asylee someone granted temporary residency under amnesty or Special Agricultural Worker provisions this includes any foreign government or any foreign corporation or entity that is not incorporated or organized business in the U.S.

<u>Fundamental Resea</u>rch: Means basic or applied research in science and engineering performed or conducted at an accredited institution of higher learning in the U.S. where the resulting information is ordinarily published and shared broadly in the scientific community. Fundamental research is distinguished from research that results in information that is restricted for propriety reasons or national security reasons (EAR) anis pursuant to specific U.S. government access an erdisation controls (ITAR).

<u>Office of Foreign Assets Control (OFAC)</u>: The US Department of Treasury oversees US economic sanctions and embargos through its Office of Foreign Assets Control (OFAC). OFAC enforces trade, anti-terrorism, narcotics, human rights, and other national security and foreign policy based sanctions prohibiting the provision of anything of value to sanctioned countries, organizations, or individuals.

Responsible Research Administration Offices

The Department will screen applicants **adden**tify those from sanctioned or embargoed countries/verify enrollment and can be tracked in Ban<u>ner. In the event an international student should desire on campus</u> <u>employment payroll shall contact Director, International Admissions if a student PA forthristited</u> (ie, campus job). The ORCA is available for assistance or clarification if needed as to the guidelines for hiring international students involved in research.

Procedures

Admissions for International Students

International students are admitted to a-**finit**le study in a specific program. Applicants who are not U.S. citizens must complete and submit an International Application for Admission (which includes submission of admission number and date from I-

bank letter. Certain transactions with individuals and entities banned by OFAC are prohibited. Visual Compliance can be utilized by the Office of International Student Admissions and/or ORCA to ensure no such payments occur with banned parties.

Management of Export Controls and International Travel

APPENDIX C

TRAVEL POLICIES AND PROCEDURES

Background

USA requires prior written approval for all international related travel on USA-approved business – students (graduate or undergraduate) on study abroad (includes but not limited to "traditional" study abroad, research/field experiences and internships/service learning/work abroad for credit or approved by

Examples of this include employee foreign travel paid by an external agency which requires institutional approval for participation in the program (professional leave).

• Student foreign travel that is approved, reviewed, recommended or otherwise "sponsored/supported" by USA incding but not limited to research, preceptorships, internships, service learning, and study abroad (includes activities which may not include academic credit or for which academic credit is awarded either as part of on campus courses (integrated), through other

- Restricted Party Screening review including individual, company and blocked foreign nationals by country reports (provided by the Office of International Education per procedure approved by the Office of Research Compliance and Assurance)
- c. Trade Sanction country review (as identified by review noted in item b)
- d. 24/7 emergency assistce insurance enrollmentincluding 24/7 worldwide call center services as well as unlimited coverage for medical evacuation, repatriation of remains, security evacuation and related support services.
- e. Completion of emergency contact and related foreign travel supporting information as requested.
- 2. The traveler receives the following from International Education
 - a. OIE signed ITRF form OIE does NOT approve or disapprove of travel only provides advisory information and recommendations regarding travel.
 - b. Notifications of US DOS alerts/warning/security information
 - c. 24/7 emergency assistance enrollment information
 - d. Instructions for completion of review process (approval, etc..) by appropriate

THE UNIVERSITY OF SOUTH ALABAMA

Policy Concerning Study, Travel, and Research in Countries

Under U.S. State Department Travel Warnings

As the daily lives of Alabamians are affected more and more by events around the world, in order to better serve the State and its citizens, The University of South Alabama has and is developing a global presence. Its students take advantage of opportunities for international education and research through organized study-abroad programs, more informal educational trips, and independent study and research funded in whole or in part by the University. Its faculty and staff participate in international educational and research opportunities, both to attain additional knowledge themselves, to share their expertise with other countries and to develop initiatives of the university in part or as a **WBMe** is committed to becoming a premiere institution of higher education with a global presence.

As the University's contacts with the rest of the world expand, additional risk is inevitable as its activities are affected by war, terrorism, political unrest, disease, and natural catastrophes in other countries. The University endeavors to balance the value anticipation in international educational activities against the potential risk to its students and employees of such participational ancing these factors, the University relies on information from the U.S. Detpraent of State (and other agencies see note below *), most particularly the Travel Warnings issued periodically by that ageDorgsequently, the University has developed this policy governing its educational and other activities in countries for which the Department of State has issued a Travel Warning.

Department of State Travel Warnings fall into several basic categories: (1) alerts or warnings of conditions that heighten the ordinary risk of travel to a particular country and (2) more urgent travel warnings that prohibit, restrict or otherwise urge U.S. citizens to defer travel to and or to depart that country. Additionally other sectors of the US government may place similar warnings and or restrictions in place such as the US Centers for Disease Control or the US Department of the Treasury Office of Foreign Assets Control (country sanctions program).

Therefore the following policies will be in place related to USA international travel for students, faculty and staff:

I. ALERT or "HEIGHTENED RISK" TRAVEL ADVISORIES: STUDENTS

No student shall be required to participate in an educational activity under University auspices in a country for which the Department of State has issued a Travel Alestudent who wishes to travel, under University auspices, accountry for which the State Department has issued a "heightened risk" travel alert may do so, under the following conditions:

- The student must review the Travel Alert and all advisory information as well as the U.S. Department of State Consular Information Sheet for the country in question. Both documents may be accessed on the web at http://www.state.gov
- 2. The student must consider carefully the risks described in the Travel Alerts/advisory information and, weighing those risks against the value of the educational opportunity to the student, make his or her own determination about whether to continue with (on)10.9 (t)-4.6 (i)6.2. (t)-4.6 2t fgen (i)6.2.dese activity. In balancing these factors, the student should (on)10.9 (t)adicate (possible) (t) (t) add conside the existing Travel Alert or advisory may b (i)6.2.hanged to a mor (i)6.2.gent typ (i)6.2. warning, triggerin section II of this policy and possibly aff (i)6.2.cting 9 (t)-4.6 (i)6.2.tudent's ability to rec (i)6.2.ive a refund already expended for the research or tudy activity he student should (on)10.also take into consideration tiossibility that, if he or she encounters difficulties aboad, the University and even the U.S. Department of State may be unable to assist.
- The student must sign a specific release, acknowledging the existence of the travel alert/advisory and his/her decision to continue with tiplanned activity despite that warning, and r (i)6.2fl (i)6.2.asing 9 (t a student is under age 19, his/her parent or guardian must also sign this **leteased**ent is age 19 or older, his/her par (i)6.2.nt or guardian must sign ticum (i)6.2.nt m (i)67 (r)-3.9 ((i)67 (l)-4.6 (y)10.9

FOR FACULTY LED GROUP PROGRAMS and or STUDENT INDEPENDENT STUDY ABROAD: In general when the U.S. Department of State issues a travel warning that spe<u>foiibadky restricts</u>, <u>or otherwise urges U.S. citizens leave a certain country</u> the following rules apply:

- 1. University study abroad programs in that country shall be suspended.
- 2. No student shall be allowed to travel to that country under University auspices.
- 3. No student shall be given University funding for any activity in that try time 30. a0 To.bib. 20.9 las

participant with all the needed security assessment information, require written response to such and if deemedpapropriate cancel or severely restrict the program activities. Students

source that is not subject to regulations. At that time, ORCA will attempt to obtain a license from the regulating agency for procurement of desired (ta),m

MTA questionnaire (e., will the materials be going to outside of **UB** and therefore possibly subject to federal export control regulations). Any questions will be directed to the ORCA to make proper determinations regarding export licensing/packaging, if applicable

x IPM will review research agreements, Nobisclosure Agreements (NDA), or Material Transfer

APPENDIX F

The University of South Alabama's policy is not to accept any kind of publication restrictions when accepting research projects, and the University works diligently to negotiate such language out of research contracts. However, in the event that we are unable to negotiate out publication restrictions, and the college or department can make a compelling case for accepting such

[Insert Department Letterhead]

To: Lynne Chronister

Vice President for Research

From:

RE: Petition to Waive the Right to Publish Results of Research

DearMs. Chronister

The Department of _____ wishes to enter into a [insert agreement type] with [Name of company or agency] entitled "____" under the direction of [name of PI]. The deliverable under the agreement is ____. The agreement proposed by [name of company or agency] includes the following clause:

Section No. [Title of Clause with Restrictions]

"Insert clause here"

The Sponsored Projects Administration (A) has attempted to negotiate the clause out of the terms and conditions but the sponsor would not agree to alter or delete the clause.

Since this clause is inconsistent with the generally accepted University wording on publications, we would like to petition to waive the right to publish the results of the research should [name of company or agency] object to the publication.

Title of Contract:

Project Funding Amount:

Principal Investigator:

We acknowledge that we may be required to waive the rights to publish the results of this research. We agree that any work related to the research that barpublished is not available for the merit or promotion processes. We agree that students and others whose careers could be affected by the publication bar will not be involved in research under this agreement.

Type PI Name	Date	Department Head	Date
Approved:			
Dean	Date	Lynne Chronister	Date

The Office of Research Compliance and Assurance will assist the Office of Grants and Contracts Accounting with determination of sanction levels whenever necessary. No financial activities will proceed until adchnical review is conducted to ensure compliance with federal export control laws.
